

NEWSLETTER GREEN

MARCH 2023 | N°1

GreEn is a cooperative project between different organisations with 3 clear objectives:

1. To promote green and digital competences for education and for the implementation of sustainable entrepreneurship.
2. To create a European and Ibero-American network to promote transnational cooperation and social, green and digital entrepreneurship in different fields.
3. To develop a toolkit of resources and a digital game for the acquisition of social, green and digital competences for sustainable entrepreneurship.

As a result of the project, a toolkit of resources and a virtual gamification game will be created and made available in English, Spanish and Guarani. The fact that it will be in English will allow all 27 EU countries to have access to them. The fact that it is in Spanish means that it can be shared with all Latin American countries. Finally, the incorporation of Guarani will make it possible to reach people with fewer opportunities in Paraguay, as well as to give added value to this language so that it does not disappear.

The partnership is made up of 6 entities from 4 different countries: Spain, Argentina and Paraguay and Uruguay:

- **Fundación ASPAYM Castilla y León:** located in Valladolid (Spain), its main objectives are to promote autonomy, equal rights and opportunities and to improve the quality of life of people with physical disabilities, allowing them a meaningful integration into society.
- **Biderbost Boscan & Rochin:** located in Salamanca (Spain), is an international consultancy with an outstanding track record in corporate social responsibility in the field of youth.

- **Don Bosco Center:** located in Palencia (Spain), it is a Salesian educational centre that looks to the future with the responsibility of continuing the pedagogical and charismatic heritage of Don Bosco and with the hope of providing an adequate response to the children and young people of today.
- **Gurises Unidos:** located in Montevideo (Uruguay), is a civil society organisation committed to the defence of the human rights of children and adolescents, both nationally and internationally.

- **Universidad Católica de Córdoba:** located in Cordoba (Argentina), the formation of people of science, conscience and commitment constitutes the mission of the University, a mission inspired by the Ignatian ideal of constantly surpassing the standards of excellence.
- **Universidad Americana:** located in Asunción (Paraguay), began as INCADE (Instituto Superior de Capacitación y Desarrollo Empresarial), constituted on 12 October 1991. Then, in 1994, by National Law N° 403, the Universidad Americana was created.

This project is funded by the European Union.
