MARCH 2023 | N°2

From 8 to 11 March 2023, the kick-off meeting of the project "GreEn - Green entrepreneurship's for the present and future of Europe and LatinAmerica" was held in Valladolid (Spain). The main objective of this initiative is to promote social, green and digital entrepreneurship in the fields of vocational education and training.

To this end, GreEn will design a toolkit of resources and a digital game with which it hopes to develop green and digital skills among schools, educators, teachers, facilitators, students and young people in Argentina, Spain, Paraguay and Uruguay, both for teaching and for the implementation of sustainable entrepreneurship

In addition to the kick-off meeting just held, the project will also have two transnational trainings, the first in Paraguay and the second in Uruguay. There will also be an intermediate meeting in Argentina and a final meeting in Salamanca. These meetings, in turn, will make it possible to learn about the reality of the participating countries and create a European and Ibero-American network to promote transnational cooperation and social, green and digital entrepreneurship between the fields of vocational training, university education and the third sector.

The project is coordinated by ASPAYM Castilla y León, in collaboration with BB&R, Salesianos Centro Don Bosco de Villamuriel de Cerrato, Gurises Unidos, Universidad Católica de Córdoba and Universidad Americana.

This project is funded by the European Union. The views and opinions expressed are those of the author(s) alone and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA).
