

# NEWSLETTER GREEN

NOVEMBER 2023 | N°3

The first training of the project "GreEn: entrepreneurship's for the present and future of Europe and Latin America", funded by the Erasmus Plus programme, has taken place from 23 to 27 October at the headquarters of the American University of Asunción (Paraguay).

25 participants from all the member entities of the consortium have carried out non-formal education activities on each of the modules for the acquisition of social, green and digital competences for sustainable entrepreneurship:

- Introduction to social, green and digital entrepreneurship.
- Creative ideas lab.
- In action: taking the initiative.
- Fundraising for the development of social, green and digital entrepreneurship.
- Sustainability of social entrepreneurship projects.
- Cross-border ventures.

During the third day of the training, local entrepreneurs presented their projects and programmes to give a realistic view on the subject, in the presence of a representative of the European Union in Asunción. In addition, the first versions of the digital games developed during the project were tested in order to detect possible failures and make the corresponding improvements.

This project is funded by the European Union. The views and opinions expressed are those of the author(s) alone and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor the EACEA can be held responsible for them.
